ABOUT ME

Information Technology graduate with hands-on experience in full stack web development, machine learning, and digital design. Proficient in HTML, CSS, JavaScript, React, Python, and MySQL, with practical exposure through internship, academic projects, and freelance virtual assistant work.

EDUCATION

Holy Cross of Davao College | 2023-2026

Bachelor of Science in Information Technology

Currently pursuing a four-year degree in Information Technology with coursework covering software development, database management, networking, systems analysis and design. Engaged in practical projects and on-the-job training that reinforce classroom learning and prepare students for real-world IT roles.

Catalunan Pequeño National High School | 2020-2022

ICT - Computer Systems Servicing

with foundational skills in computer operation, software applications, and basic web development. Capable of handling digital tasks, file management, and simple troubleshooting.

ON-THE-JOB EXPERIENCE

SPLACE BPO — IT Intern

2026

Assisted in computer troubleshooting and hardware maintenance, performed operating system installation and computer reformatting, helped with basic network and technical support tasks, and maintained and monitored computer systems.

PROJECT

RiceSure | 2025

Built a CNN-based mobile application that detects rice grain adulteration from smartphone photos, featuring real-time purity classification with confidence scoring and a user-friendly mobile interface.
